Related Classes

INTRODUCTION TO GOOGLE APPS

Google Apps has become a major resource for businesses of all different sizes. Mail, Calendar, Google Docs, and much more all in one place! This course is a great start for individuals transitioning from an office environment to a Google Apps environment.

SMARTPHONE PHOTOGRAPHY

This three-hour course is aimed at teaching photography techniques for smartphones and compact cameras that will help you take better photos for a wide range of purposes. Additionally, students will work closely with an instructor on learning how to upload photos to a variety of social media outlets from Facebook to Flickr. Students will be empowered to conveniently take and share images with communities of co-workers, friends and family.

DSLR PHOTOGRAPHY LEVEL 1

This three-hour course is aimed at taking the guesswork out of your digital SLR (DLSR) camera. Focusing on everything from the setup of the initial shoot to how to load your pictures onto your computer, this course will help you take better photos. Students should expect to work closely with an instructor on modern photo techniques and how to get the most out of your equipment.
